

LUNET OLD CITY HOTEL ISTANBUL

2025 Sustainability Report

We are aware of our responsibilities regarding sustainable tourism. Therefore, we place equal importance on raising awareness not only among our guests but also among our employees. We continuously increase social responsibility awareness and consistently implement environmentally friendly management practices.

Our management approach is based on "sustainable tourism". To leave a more livable environment for future generations, we use our natural resources sustainably while maintaining the highest quality of our products and services.

ABOUT THE REPORT

As a company, we place special emphasis on informing our stakeholders transparently and effectively about our activities and their impact. In this regard, the sustainability reports we aim to publish annually will be an important tool in our efforts to be a transparent and accountable organization.

Since the day we started operating in the business world, we have made and continue to make many investments in both social and environmental aspects for the sustainability of our business. With this sustainability report, we aim to communicate our economic, environmental and social performance to our employees, customers and other stakeholders. Unless otherwise stated, the information in this report covers our performance between **July 2025 and December 31, 2025 .**

SCOPE

This document outlines the fundamental framework for a Sustainability Management System (SMS) that can be adapted and developed to encompass all management processes of our hotel, as well as setting out our organization's policies and practices.

This document is intended for all stakeholders, guests, and staff of the hotel. Our system is continuously being developed to suit the size and scope of our hotel.

SUSTAINABLE MANAGEMENT SYSTEM

We believe that tourism and sustainable practices can coexist with luxury and guest comfort.

By embracing our sustainability philosophy, we aim to provide our guests with an unforgettable and environmentally conscious experience while actively contributing to the protection of our planet. In line with our sustainability values, we are committed to promoting eco-friendly practices and developing a philosophy of environmental responsibility. We believe that sustainability is not just a trend, but a fundamental principle that guides our operations and guest experience.

We are committed to contributing to the fight against climate change by reducing emissions, increasing the use of renewable energy, and offsetting remaining emissions. Sustainability plays a vital role at the heart of our vision and values. We believe that hospitality can coexist harmoniously with the well-being of our planet and communities. We are constantly working to improve our energy efficiency, use of renewable energy, water conservation, waste minimization, and sustainable procurement.

Our sustainable management system is based on risk analysis. Risk analyses are conducted in the areas of environment, natural disasters, society, culture, economy, quality, human rights, health, and security. New areas can be added as needed.

After analyzing the risks, we also have a crisis management plan in place that outlines what to do if the risks materialize. The appendix to this document includes instructions on how to conduct risk analysis and crisis management.

SYS involves the implementation of specific policies by all employees in the areas of quality, economics, management, environment, culture, human rights, health and safety, the setting of goals, and the monitoring of whether these goals are achieved, thus ensuring the continuous improvement of business management processes.

When the established goals are achieved, new goals are set. If they are not achieved, our goals, policies, and practices are reviewed. In this way, we strive to ensure continuous improvement.

The objectives of our hotel's management system and the performance indicators used to monitor compliance with these objectives are included as an appendix to this document.

Our hotel is committed to fulfilling the obligations of the Türkiye Sustainable Tourism Program regarding sustainability and to continuously improving its sustainable management system to enhance sustainability performance.

Due to the state of the sector, environmental, social, technological, economic and cultural risks, and legislative changes and updates, our management system is continuously reviewed, and systems and policies are updated when necessary.

The steps mentioned above can be summarized as the Plan-Do-Check-Act (PDCA) approach.

Figure 1. PDCA Cycle

Plan: Our hotel prioritizes and sets goals regarding the environment, society, culture, the national economy, and the governance system. To achieve these goals, we plan a roadmap and actions to be taken.

Implementation: Our hotel establishes fundamental policies and practices relating to environmental, cultural, social, human rights, health, and safety. These are monitored, measured, and recorded at defined intervals by relevant personnel.

Check: We monitor and record feedback from both staff and guests at our hotel. Corrective measures will be taken if necessary.

Take action: We take action to correct any issues identified during our hotel's inspection process. Corrective actions and procedures are recorded and archived.

LEGAL COMPLIANCE

Our hotel is committed to complying with all applicable laws, regulations and international agreements, maintaining an up-to-date list of these, regularly informing its staff about them, and providing necessary training to its personnel.

Our hotel will provide all necessary permits, certificates, and documents to the relevant individuals and institutions upon request or demand.

These documents include the Business Opening and Operating License, the employee insurance statement for the last month, the tax certificate, the emergency action plan, employee training and certifications, the contract with the workplace physician, the sewage connection certificate obtained from the municipality, documents regarding pest control, and other necessary documents.

Business legal documents;

STAKEHOLDERS AND COMMUNICATION

Our hotel provides accurate information to all segments of the audience in its promotions. We always use real visual material in our promotions. On our website, social media accounts, and other print and print promotional channels and marketing communications, our hotel maintains a transparent and realistic approach regarding its products and services.

Our hotel also shares its policies, actions, and processes related to sustainability openly and transparently with its employees and customers. This is done through our hotel website, where periodic reports on sustainability performance are published. These reports are prepared at appropriate intervals.

Our hotel has a system in place to gather feedback from our customers, public institutions, municipalities, employees, local community, and all other relevant individuals and organizations regarding our sustainability performance, policies, and practices. Through this system, we receive feedback from both our staff and our customers.

Our system is designed to enable and encourage our customers and staff to provide feedback quickly, simply, and effectively.

This system includes survey applications for guests, regular monitoring of social media accounts, email, messaging services and other communication channels for employees, and email communication and regular monitoring for all other stakeholders.

Guest experience: Guest satisfaction is a priority at our hotel. Guest satisfaction includes feedback from the sustainability system described above. The results are analyzed. Negative feedback and responses are recorded, and necessary measures are taken.

Employee participation: Our employees are aware of their responsibilities within our management system and sustainability policies and practices. Their roles are defined in writing, communicated to them, and regular training and guidance are provided. These training sessions are recorded. Our employees actively participate in the development and continuous improvement of our management system and sustainability performance. We review and improve our system based on feedback from our employees.

In line with our sustainability policies and management system, we provide employees with periodic training programs on sustainability and their work areas, including orientation training, on-the-job training, legally required training, and guidance support. We implement annual training plans on occupational health and safety, hygiene training for personnel, water and energy conservation, chemical usage regulations, fire protection, first aid, etc.

Our employees have free and open access to all our training materials. Our hotel complies with Labor Law No. 4857. The hotel is committed to complying with the relevant provisions of the law and pays its employees at least the minimum wage. Furthermore, our hotel also undertakes to comply with Law No. 5510 on Social Security and General Health Insurance and Law No. 6331 on Occupational Health and Safety.

Our hotel has established a "Sustainability Team" to manage its sustainability activities.

A sustainable management system and a local community communication officer have been appointed at our facility.

GOODS RECEIPT AND PURCHASING PROCEDURES

Our purchasing policy includes local, environmentally conscious, fair trade-based, and efficient procurement practices.

Our hotel monitors the sources of goods and services. We hold periodic meetings with our suppliers and check their sustainability certifications, information, and documentation.

Local Procurement: When purchasing goods and services, our hotel prioritizes local suppliers, provided they offer quality and reasonable prices. Therefore, we regularly audit our suppliers, update our supplier list, and keep them informed. The percentage of goods and services sourced from the local community is also measured.

When purchasing goods and services, our hotel prioritizes fair trade suppliers, provided that imported products are of high quality and reasonably priced.

Environmentally conscious procurement: Our hotel follows an environmentally conscious procurement policy, prioritizing efficient purchasing to reduce food and solid waste, and focusing on energy and water conservation.

Our hotel prioritizes environmentally friendly products (products with eco-labels) in its procurement. If there are no eco-labeled products in the product group to be purchased, we select the relevant products from suppliers and manufacturers whose production and all other processes do not harm the environment.

In this context, our hotel prioritizes selecting suppliers with sustainability certifications when making purchases. Examples of certifications that can be sought in suppliers include ISO14001, ISO50001, ISO14064, and ISO20400.

For wood, fish, paper, and other food products, environmentally certified (FSC, MSC, EU-EcoLabel, etc.) or traceable source products are preferred.

Threatened species and species whose sale is prohibited (fish, trees, plants, game, etc.) are not allowed in our hotel and is not in use.

We measure the ratio of our purchases from environmentally certified, local producers and suppliers, and fair trade suppliers, to our total purchases.

Our hotel has environmentally certified goals and aims to procure locally and through fair trade. Within this framework, we aim to increase the proportion and number of local and fair trade suppliers in our procurement processes, and we are committed to doing so.

Efficient purchasing: Our purchasing policy prioritizes reusable, returnable, and recycled goods.

Our hotel also prioritizes bulk purchasing and purchasing products in bulk. This reduces the number of deliveries to the hotel and lowers greenhouse gas emissions.

Our primary priority and preference is to avoid unnecessary and excessive plastic, nylon, paper, glass, and wooden packaging in the products delivered to our hotel.

In the procurement of consumables and toiletries, single-use products and unnecessary packaging (especially plastic) are avoided. The purchase and use of consumables and single-use products are monitored and managed.

- We ensure the health, safety, and well-being of all our employees, regardless of gender.
- We support women's participation in the workforce in all our departments and provide equal opportunities.
- We operate with an "equal pay for equal work" policy without gender discrimination.
- We distribute tasks based on the principle of equality.
- We provide the necessary environment for equal access to career opportunities.
- We create training policies and support women's participation and increased awareness.
- We create work environments and practices that protect work-life balance.
- We support women's participation in company management and provide equal opportunities.
- We will not tolerate women being subjected to any form of abuse, harassment, discrimination, suppression, coercion, defamation, etc. We are always aware of and support the value they contribute to the world and our organization.

SOCIAL RESPONSIBILITY POLICY

We believe that all our employees have the right to work in healthy and safe conditions that respect human dignity. Recognizing that our employees are our most valuable asset, ensuring and protecting their safety is our top priority.

Beyond legal obligations, our hotel is always ready to implement the best environmental solutions, develop and promote the use of eco-friendly technologies, and support initiatives that raise environmental awareness.

We strive to fulfill our social and environmental responsibilities to the community in the cities where we operate, in harmonious cooperation with our shareholders, employees, the public, civil society organizations, and other stakeholders.

We believe that our human resources are the most important element of sustainable growth.

We ensure that our employees' personal rights are fully and accurately exercised.

We treat our employees honestly and fairly, and we are committed to providing a non-discriminatory, safe, and healthy working environment.

We make every effort to support the individual development of our employees and to help them maintain a balance between work and personal life.

We manage the environmental impacts that may arise from all our activities with a sense of responsibility.

In line with our corporate social responsibility principles, we strive for the development of our society.

We encourage our employees to volunteer in appropriate social and community activities that demonstrate their sense of social responsibility.

We are committed to developing and implementing approaches that encourage all our business partners, especially our suppliers, to act in the field of social responsibility.

Within the framework of occupational health and safety, we have taken all necessary precautions for our employees and we are particularly careful to ensure that the required on-the-job training is provided by experts in their fields as part of the annual training program.

We are sensitive to the traditions and cultures of Türkiye and the countries in which we operate, and we comply with all legal regulations.

PURCHASING POLICY

Our purchasing policy includes local, environmentally conscious, fair trade, and efficient procurement practices. Our hotel monitors the sourcing of goods and services.

We hold regular meetings with our suppliers. We check their sustainability certifications, information, and documents.

Local Procurement: When purchasing goods and services, our hotel prioritizes local suppliers, provided they offer quality and reasonable prices. Therefore, we regularly audit our suppliers, update our supplier list, and keep them informed.

The percentage of goods and services purchased from the local population is measured.

Our hotel prioritizes fair trade suppliers when purchasing goods and services, provided that imported products are of high quality and reasonably priced.

Environmentally conscious purchasing: Our hotel follows an environmentally conscious purchasing policy, emphasizing efficient procurement, energy conservation, and water conservation to reduce food and solid waste.

Our hotel prioritizes environmentally friendly products (products with eco-labels) in its procurement. If there are no eco-labeled products in the product group to be purchased, we select the relevant products from suppliers and manufacturers whose production and all other processes do not harm the environment.

In this context, our hotel prioritizes selecting suppliers with sustainability certifications when making purchases.

Examples of certifications that can be sought in suppliers include ISO14001, ISO50001, ISO14064, and ISO20400. For wood, fish, paper, and other food products, environmentally certified (FSC, MSC, EU-EcoLabel, etc.) or traceable source products are preferred.

Threatened species and species whose sale is prohibited (fish, trees, plants, game, etc.) are not available at our hotel. It is not being purchased or used.

We measure the ratio of our purchases from environmentally certified, local producers and suppliers, and fair trade suppliers, to our total purchases.

Our hotel has environmentally certified goals and aims to procure locally and through fair trade. Within this framework, we aim to increase the proportion and number of local and fair trade suppliers in our procurement processes, and we are committed to doing so.

Efficient purchasing: Our purchasing policy prioritizes reusable, returnable, and recycled goods. Our hotel also prioritizes bulk purchasing and the use of bulk products. This reduces the number of deliveries to the hotel and lowers greenhouse gas emissions. It is a fundamental priority and preference to eliminate unnecessary and excessive plastic, nylon, paper, glass, and wooden packaging in the products delivered to our hotel. In the purchase of consumables and toiletries, single-use products and unnecessary packaging (especially plastic) are avoided. The purchase and use of consumables and single-use products are monitored and managed.

CODE OF CONDUCT IN CULTURAL HERITAGE SITES IN TURKEY

To enhance your experience and to ensure the preservation of cultural heritage sites in Türkiye for future generations, please adhere to the following rules.

CODE OF CONDUCT IN NATURAL AREAS

- Nature tours are organized activities aimed at visiting, seeing, getting to know, and promoting all the natural areas of our country ; therefore , all event organizers must obtain permission from the administration to ensure the sustainability, effective management and protection of resources, visitor safety, visitor guidance, and meeting visitor needs and expectations. Permission applications are made in person or by mail, fax, or email to the General Directorate of Nature Conservation and National Parks or the Provincial Directorates, and applications are processed within 10 (ten) working days.
- Rare, endemic, endangered, or potentially endangered native plant species within protected areas cannot be harmed in any way. These species cannot be collected, uprooted, or have parts of them cut off; the eggs of wild animals cannot be collected, and their nests cannot be disturbed. inviolable.
- Entry into areas where endangered species are designated as strictly protected areas, and for general security reasons, is prohibited. Tours are not permitted in restricted areas and locations.
- Activities that could harm birds are not permitted during tours (Individuals cannot be disturbed, nests and chicks cannot be touched, and tissue and blood samples cannot be taken under any circumstances). Birdwatching is not allowed during the birds' breeding season. No image can be captured.
- Professional photography and film shooting cannot be done without obtaining the necessary permits from the Ministry.
- Travel agencies that will organize hunting tours, photography and film shoots, and wildlife observation tours in Turkey for foreign visitors are required to obtain a hunting tourism certificate from the Ministry. (Article 15 of Law No. 4915)
- The fees and durations to be applied for tours, photography and film shoots are determined and announced by the General Directorate at the beginning of each year.
- Wild animals seen or encountered during tours should not be startled or chased. If the tour route is in the direction the animal is going, a suitable amount of time is waited, and the route is continued more slowly, taking care not to approach the wild animal too closely in a way that would startle or disturb it.
- For visitor safety, the Administration will issue the necessary warnings, and other necessary precautions will be taken by the organizers of the event.
- Visitors are required to take their litter with them, regardless of the method of disposal.
- Making noise and listening to loud music are prohibited during the tours.
- No fires are allowed in the areas.
- Wildlife cannot be destroyed.
- Any interventions that cause or may cause the loss or alteration of the characteristics of protected areas. No work or activities that would cause soil, water, and air pollution and similar environmental problems can be carried out.
- In protected areas, visitors are required to visit the site accompanied by a certified "Site Guide" . However, day-use areas and areas outside the absolute protection zone defined in the plan can be visited within the framework of the defined rules.
- Since natural resources in areas requiring absolute protection and in absolute protection zones included in the plans are to be left in their natural state without human influence, the use of these areas without the knowledge of the administration and the unauthorized movement of visitors in the area are strictly prohibited.
- In protected areas, visitors are not allowed to go outside the designated areas and routes (This is important for both the protection of resource values). (also important in terms of visitor safety).
- The conditions and level of use and utilization of the areas are determined by the Administration, and the "carrying capacity" cannot be exceeded.

• Visitor management in planned areas, visitor usage in the area, etc., are implemented within the scope of the prepared plans.

Their decisions cannot be disregarded.

• The methods by which the tour route can be visited (vehicle, pedestrian, etc.) are defined in the long-term development plans and management plans of the areas. Methods other than those specified in the plans cannot be used. In areas without a management plan, environmentally friendly methods deemed appropriate by the administration may be used.

• In protected areas, services and facilities for protection, management, research, visitor information and guidance are envisioned to be implemented in accordance with the plans made for these areas, in a way that minimizes negative impact, and this is reflected in the implementation is performed

• No activities that would affect the water regime are permitted in wetlands.

• Foreign species cannot be introduced or released into wetlands for any purpose whatsoever, and species cannot be collected from wetlands.

• Avoid purchasing illegal products/souvenirs made from endangered wildlife species .

• Polluting the environment and nature is strictly prohibited. Violation of these rules is punishable.

These rules have been prepared in accordance with the General Directorate of Nature Conservation and National Parks Circular No. 2007/1, and those who act contrary to the provisions of the circular will be subject to the penalties stipulated in the Environmental Law No. 2872. In cases where travel agencies and other legal entities commit acts prohibited by the Forestry Law No. 6831 and the Fisheries Law No. 1330 in areas where the National Parks Law No. 2873 is applied, the penalties will be doubled. The complete implementation of the above-mentioned rules is crucial for sustainable hunting and wildlife management , the sustainability and effective management of the resources of protected areas, their protection, their transmission to future generations, visitor safety , monitoring and guidance of visitors to protected areas, and the identification
